

Project Title: GYRITS – Dynamic Variable Message Signs (Montana)

Objective:

To test the effectiveness of Dynamic Variable Message Signs (DVMS) in reducing accidents on Idaho and Montana highways.

Project Components:

The Montana Department of Transportation purchased similar DVMS units in the spring of 2002. MDOT plans to begin using them in the winter of 2002/2003.

Project Partners:

Idaho Transportation Department, Montana Department of Transportation
