

PESTS in your RENTAL

What you need to know to stay safe:

LOOK OUT FOR SIGNS OF PESTS

This can include:

- Droppings
- Gnawed holes in walls or food
- Noises

Look out for ways
Pests can get in your
home

LIMIT ENTRY

- Plants (in and around your home)
- Items from other homes
- Open windows, doors and hidden entry points

PEST PREVENTION

- Limit exposed food and water
- Don't leave out dirty dishes or pet food
- Keep counters and damp areas clean

WHAT TO DO IF YOU DISCOVER AN INFESTATION:

Reach out to **MSU extension**

They have an entomologist on staff that can help identify the bug!

Email: insects@montana.edu with questions or detailed pictures

Take samples to: **Schutter Diagnostic Lab**

Go to: diagnostics.montana.edu for more information!

**IF YOU DISCOVER AN INFESTATION IN YOUR
RENTAL CONTACT YOUR LANDLORD
IMMEDIATELY**

and keep track of your interactions!
